

The use of drones: regulation an institutional compliance policy

Smart Borders

Prof. Dr. Zulima Sánchez. Salamanca University

Can regulation and a compliance policy help in drone surveillance?

- Introduction.
- Drones in Border control: surveillance and rescue
- Regulation needed:
 1. is it sufficient a regulation based on air traffic?
 2. How could regulation ensure data protection?
 3. Right to information on data collection
 4. Authorizations
 5. Responsibility
- Drone and border surveillance compliance: developing a drone policy
